

## Exceptional Quality, Traditional Craftsmanship, Iconic Design

As the pioneers of British copper bath design with over 15 years at the forefront of specialist copper bath manufacture, we pride ourselves on producing bath ware of unrivalled quality, luxury and beauty, designed to enrich your daily life.

Inspired by the iconic design heritage of 19<sup>th</sup> Century France, William Holland combine traditional craftsmanship with modern innovation to create truly original and bespoke, functional works of art.

Handcrafted from pure copper or brass, our highly skilled team of British master craftsmen hand finish each and every one of our baths and basins to a tailor-made bespoke finish of your choosing.

Our aim quite simply, is to transform function into beauty, the ordinary to extraordinary, and routine into an absolute pleasure.

“There must be quite a few things that a hot bath won’t cure, but I don’t know many of them.”

---

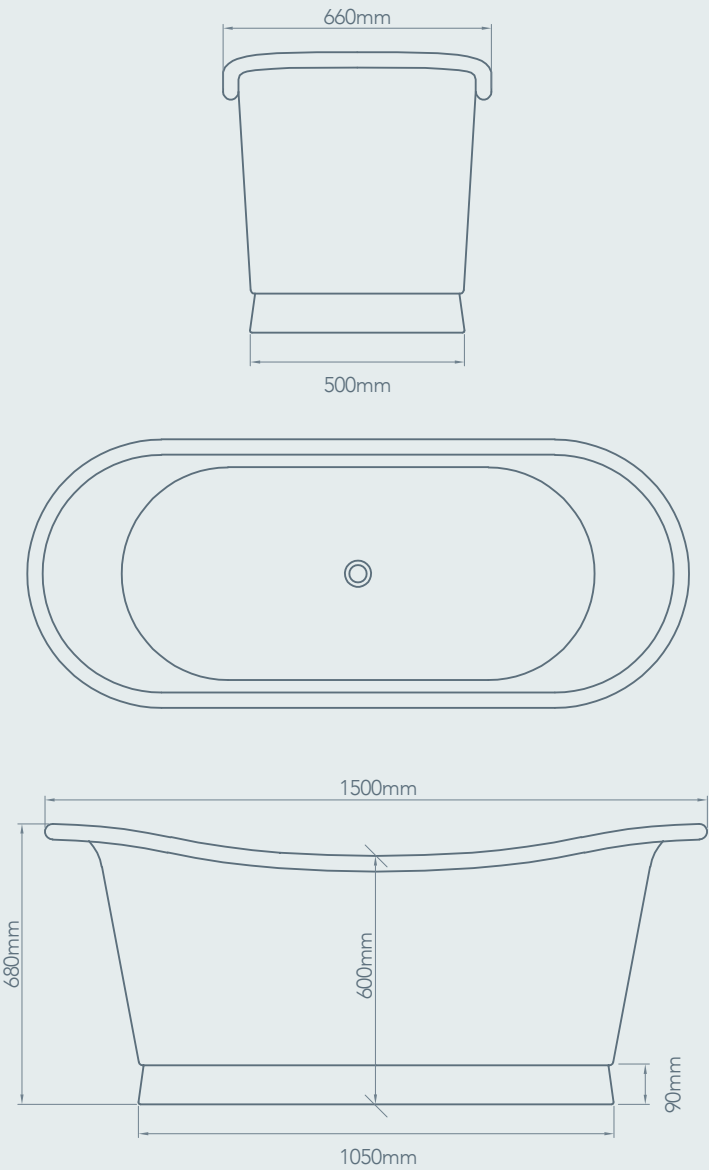

Sylvia Plath

A photograph of a copper bathtub in a bathroom. The bathtub is polished and reflects light, with a white towel draped over its side. It is set against a dark wall with framed artwork. A chrome faucet and showerhead are visible. The tub sits on a dark tiled platform. To the right, a small metal stand holds folded white towels. The overall mood is sophisticated and elegant.

“ Nothing is softer or more  
flexible than water, yet nothing  
can resist it.”

A photograph of a modern walk-in shower. The shower has a glass door with a chrome handle and frame. The interior features a white rectangular tray with a central drain. The walls are covered in dark, textured mosaic tiles. A chrome showerhead is visible on the left. To the right, a chrome towel rack holds a white towel. The floor is made of large, dark square tiles.

" For marriage to be a success,  
every woman and every man  
should have her and his own  
bathroom. The end."

ROTUNDUS BATH

A photograph of a modern bathroom interior. On the left, a large, round, copper bathtub sits on a light-colored, textured floor. The walls are made of stone, with a mix of warm, golden-brown tones on the left and cooler, greyish-blue tones on the right. The lighting is soft and warm, creating a serene atmosphere.

“ There is no need to go to India  
or anywhere else to find peace.  
You will find that deep place  
of silence right in your room,  
your garden or your bathtub.”

---

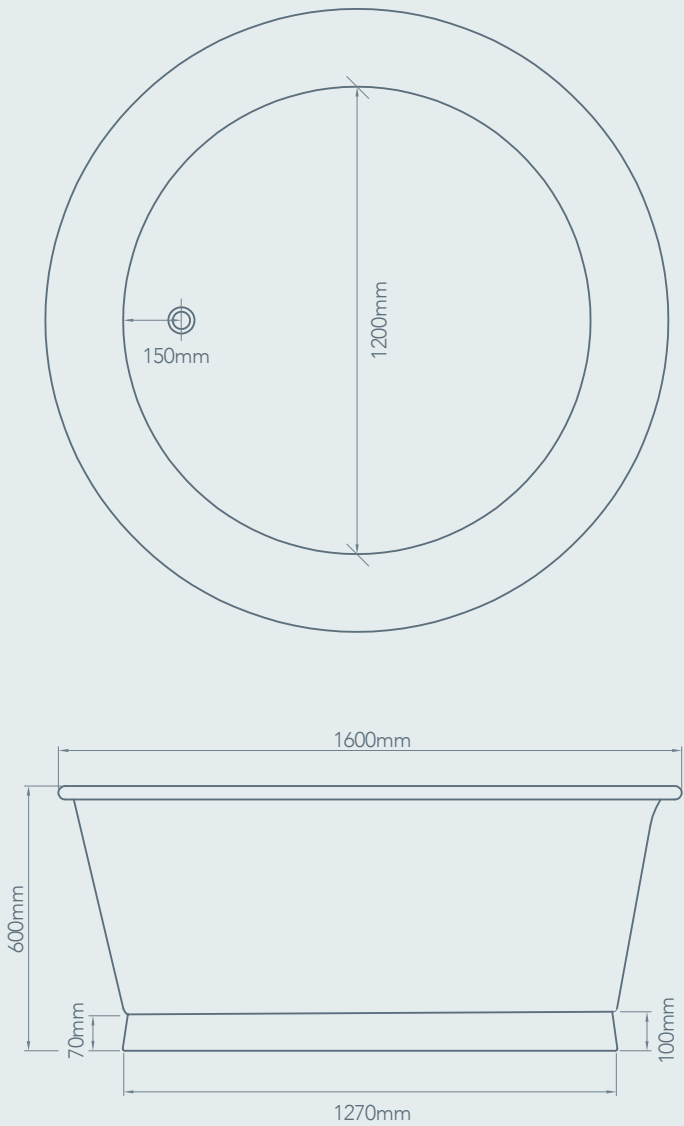

Elisabeth Kubler-Ross

## Original, Bespoke, Unique

In addition to our extensive range of hand crafted products included within this brochure we also offer a unique service, designing and hand crafting one-off, bespoke size, luxury baths.

Should you have a specific requirement not contained within our current catalogue, please contact us with your preferred William Holland bath style and unique measurements and we will handcraft a bespoke size bath just for you.

All bespoke orders are subject to a minimum order value of £5,000.00 plus VAT, and will be subject to an extended lead time due to the complex nature of the manufacturing process. Please ensure you allow plenty of time for the creation of your bespoke product in order to avoid any disappointment.

Each and every William Holland bath and basin is meticulously hand finished to order by our team of master craftsmen in Dorset who continually strive to innovate and create. As well as offering bespoke sizes, should you also have a unique finish in mind that does not currently feature within this brochure, please give us a call and let our creative team put their talents to the test. We would love to hear your ideas!

Please contact us for further information.

## Practical, Sustainable, Stunning

We all know that copper is one of our most beautiful natural materials, but did you know it is also one of our most practical, energy efficient and sustainable resources?

Copper Bath Key Facts:

**Low maintenance** – Following William Holland's extensive 7 stage polishing process each of our mirror shine finishes are designed and protected to ensure they are of minimal maintenance. No polishing at all is required to keep your bath gleaming.

**Extremely durable** - As copper is corrosion resistant your bath will last a lifetime.

**Heat conductive** – The copper heats up almost instantly to the ambient water temperature requiring very little energy to do so. The result? ... a bath that stays warm long after you're wrapped in a towel.

**Self-healing properties** – As well as the antimicrobial properties of pure un-coated copper, the patina, verdigris and un-coated copper and brass finishes are also self-healing. This means, if you accidentally mark the bath the natural oxidation processes will restore the finish to its former glory all by itself.

**Lightweight** – On average each bath weighs only 45kg, perfect for delicate renovations or where weight restrictions would previously have been an issue.

**Sustainable** – With its 100% recyclability, superior thermal and conductive properties and abundance, copper is a truly sustainable green material.

## Our finishes explained

**Copper** – Our pure copper baths are a work of art. The mirror polish shine, achieved through an extensive and unique seven stage polishing process is protected using a bespoke William Holland coating to ensure they maintain their sumptuous gleam. Available in a soft brushed finish adding an element of gentle understatement, or left un-coated to naturally patina and harness the antimicrobial properties of this amazing material, copper is a suitable finish for virtually any interior style.

**Nickel** – This mirror shine luxury finish is crafted using a special William Holland plating technique. With a gentle warm undertone, nickel is an opulent choice suitable for traditional or modern interiors requiring iconic design heritage with a contemporary twist. The nickel can also be delicately brushed to create a beautifully soft, muted sheen.

**Brass** – Truly sumptuous and suitable for contemporary or bold traditional interiors, our pure brass baths are crafted using our unique seven

stage polishing process to create a glamorous mirror shine. In order to maintain this luxury finish, we protect the bath with a unique coating so that absolutely no polishing is required. Alternatively we can gently brush the surface to craft a subtle, satin finish, or leave the brass un-coated to develop a rich, natural antique patina over time.

**Tin** – Using traditional artisan techniques handed down through the generations, tin is hand applied over the hand beaten copper to produce a glorious industrial or rustic-luxe effect. Full of history and narrative you can virtually see our master craftsmen at work through the textured sweep and tones of this minimalist and classic choice.

**Patina** – Using our years of expertise and unique William Holland processes, with meticulous and patient care we capture the deep rich tones of antique copper in a 'living' finish that will naturally deepen and evolve over time. Perfect for understated, industrial-luxe or traditional interiors this style exudes iconic heritage.

**Verdigris** - The other member of our 'living finish' range, this vibrant aqua hue is gently formed through natural environmental oxidation. An organic process that usually takes years to unfold, we capture this finish through a combination of special techniques and modern innovation, to present a stunning organic work of art deeply rooted within nature.

**RAL** – If this wasn't enough, we can also combine any of the above finishes with an interior or exterior enamel from the full RAL colour spectrum, as Oscar Wilde said "colour can speak to the soul in a thousand different ways" ...so let yours sing!

If you have a specific finish request that does not appear above then please feel free to ask. Our creative experts and craftsmen in Dorset are continually innovating new and exciting techniques to transcend the boundaries of bath design.

.....

**INSPIRE** your creativity by viewing the full range of designs and finishes available at our fully functioning showroom based in the glorious Dorset countryside.

**INDULGE** and experience our baths first hand by treating yourself to a stay at one of our luxury hotel partnerships. Please visit our commercial gallery pages to discover which hotel best suits your style and aspirations.

**CREATE** your bath online using our product pages and we will produce a miniature to your specified finish. You will find your mini-bath invaluable when choosing other materials and colours for your project.

ORDERING YOUR MINI BATH

Our miniature bath design samples are available in a single size and shape measuring 300mm X 180mm X 140mm. Hand finished to order, they provide an excellent tool for appreciating the handcrafted aesthetic of the product.

To order, simply select your finish and drop us a line, or email us at [info@williamholland.com](mailto:info@williamholland.com).

Having received your sample we offer you a couple of options.

- Return to us in perfect condition within 30 days and receive a full refund.
- Keep the sample, place an order for a bath within 90 days and receive the equivalent value discount.

BRASSWARE & FITTINGS PRODUCT CODES

Please quote the product code, (usually found directly above the items finish /price matrix) along with the finish required.  
Product code: **WH 2224 / Brushed Nickel**  
Product name: Floor Standing Manual Bath & Shower Mixer in Brushed Nickel finish.

DIMENSIONS

Dimensions can vary due to the handmade nature of our products.

DELIVERY

All of our products are hand finished to order and subject to a 4 - 8 week lead time. At particularly busy times this lead time may be extended.  
Please bear this in mind when ordering to avoid disappointment.

Printed by Blackmore on FSC certified paper, using biodegradable inks and Ultra high efficiency curing through LED technology. This process results in Zero ozone production and Eco benefits including up to 90% electricity savings compared to standard drying systems. Registered to ISO 14001: 2004, ISO 9001: 2008, OHSAS 18001: 2007 standards, with over 97% of waste being recycled.

The colour reproduction of the products in this brochure are a close representation, however we cannot accept any responsibility for any variation in colour due to the photographic and printing processes.
